

Intellectual Property

PROTECTING IDEAS AND INNOVATIONS

Many of our clients are brilliant innovators in their respective fields. They are blazing trails in entertainment, technology, manufacturing, sustainability, and health care. Brooks Pierce's intellectual property attorneys help clients protect their innovations through licensing, patenting, or applying for copyrights and trademarks. Our team includes a [Board Certified Specialist](#) in Trademark Law.

Diverse IP Protection Experience. We assist our clients by providing counsel on such matters as:

Name and brand selection (including internet domain names)

Technology licensing

Prosecuting trademark or copyright applications

Maintaining registrations

Policing rights and royalties

We are also skilled and experienced in handling disputes over [intellectual property](#).

Diverse Industry Experience. Our attorneys bring a wide range of skills and background experience to their IP counsel, making them accessible to clients in any industry, including entertainment, broadcast media, technology, and pharmaceuticals. We have prosecuted and maintained thousands of trademark and copyright registrations, both in the United States and internationally.
