Brooks Pierce hosted the NC TECH Association's Government Vendor Network event in the firm's Raleigh office on Oct. 23.

NC TECH Association's Government Vendor Network is a forum for member companies who have an interest in doing business with state government. During the event, attendees discussed IT projects at the Department of Health and Human Services (DHHS), Health Opportunities Pilot Program and DHHS cloud initiatives.

The NC TECH Association's mission is to foster growth and champion innovation in North Carolina's tech sector, while providing a voice for the tech community. NC TECH seeks to make North Carolina a global leader where tech professionals, companies and organizations thrive.
